Developing an international network of friends/colleagues	56 %
Widening the scope of my research	36%

Comments from participants

- I know it's difficult to get together on site due to the impact of COVID-19, but I really wanted to get together onsite and work together.
- In the case of online, it was difficult to work on assignments while considering the impact of the time difference.
- This summer camp allows students from different backgrounds to exchange their ideas. That's a good experience!
